Are you AWARE?

Fish & Wildlife Natural Resources Police remind hunters that they are required to wear hunter orange for safety during all firearms deer seasons, except when hunting migratory birds. Firearm deer hunters, as well as bow hunters and small game hunters, are required to wear no less than a total of 400

square inches of hunter orange on their heads, chests, and backs combined during firearms deer seasons. Deer hunters concealed inside ground-level blinds also must place 400 square inches of hunter orange within 10 feet outside of the blind and at least 3 feet off the ground during firearms deer seasons.

Current and upcoming hunting seasons include:

- Archery and crossbow deer season, now through Jan. 31, 2019
- Squirrel season, now through Feb. 2, 2019; closed during November shotgun deer season
- Snow goose season, Oct. 3 through Feb. 2, 2019, and Feb. 9, 2019
- Muzzleloader deer season, Oct. 5 through Oct. 14

Hunters also are reminded that transporting a loaded firearm in any motorized vehicle, including ATVs, is prohibited. In the case of a muzzleloader rifle, loaded means that the powder and ball, bullet, or shot is loaded in the bore. A muzzleloader is not considered loaded if the cap, primer, or priming powder (in a flintlock) is removed and the striking mechanism used to ignite the cap, primer, or priming powder is removed or rendered inoperable, or if the muzzleloader is enclosed in a case.

To report hunting violations or accidents please call the Delaware Fish & Wildlife Natural Resources Police 24-hour dispatch line at: 302-739-4580 or 1-800-523-3336.
